

Disclaimer: The following information includes indicative rates, fees and costs as of 3/5/2026. Loan amounts are for illustration purposes only. Changes in loan amounts will entail changes in upfront costs and may increase or decrease the permanent mortgage rates. Actual rates, fees and costs may vary depending on various factors, including but not limited to market rates, the amounts and sources of financing, and structural modifications to the financing. The Community Development Administration reserves the right to modify the rates, fees, and financing structures shown below in its discretion and without prior notice. Indicative projects are new construction / substantial rehab with 20-24 month construction period
