

Enhanced Weatherization Program

After a home is determined to be eligible for weatherization services, a Home Energy Analyst performs a Healthy Homes Assessment & Home Energy Audit.

The only way to assess health and safety needs and ensure maximum energy savings is to evaluate every aspect of the home.

Weatherization Services

- Installing insulation
- Repair/Replace furnace systems
- Caulking to reduce air leakage
- Installation of a programmable thermostat
- Dryer and bathroom ventilation

Health & Safety Services

- Moisture & mold remediation
- Asbestos abatement
- Installation of smoke & carbon monoxide detectors
- Radon mitigation
- Roof repair/replacement
- Plumbing and electrical repair
- Structural repair
- Removal of Lead hazards

2016 INCOME GUIDELINES
