

EmPOWER LIEEP Notice 10-13-10

Issuance Date: 10/29/2013

**RGGI Funding Guidance - LWA**

The current 2013 SEIF/RGGI agreement expires December 31, 2013. DHCD is working to ensure all available funds are utilized prior to the deadline. In an effort to achieve this goal, RGGI/SEIF funds can be used exclusively or leveraged with other funds for all weatherization services, including cases eligible for MEAP funding, such as emergency no heat cases or cases where additional health and safety is needed. RGGI funds may also be used for furnace repair or replacement and weatherization measures in cases where the home is not eligible for EmPOWER LIEEP funds. Please refer to your RGGI/SEIF agreements for the full RGGI scope of work and detailed cost limitations. Please provide a pipeline of your existing cases and any referrals that you have held in anticipation of MEAP funds. Once your list is received, DHCD can better assess all agencies' funding needs and upload needed funds into Hancock.
