Energy Consent Form - Page 4

Customer Consent to Obtain Household Energy Information

The Maryland Department of Housing and Community Development (DHCD) has a number of programs that are geared towards making Maryland homes more comfortable, efficient, and affordable through energy savings measures. **WHY WE NEED A RELEASE** – For our energy efficiency programs to be successful, DHCD will need to compare energy usage before and after the efficiency improvements. To understand how effective these measures are in reducing your energy bills, we will need access to actual energy usage data for your home, as well as data on energy saving measures installed in your home. This data will allow us to more accurately personalize energy savings estimates for home energy improvements provided by participating contractors, ensure that installed measures are delivering the expected energy savings, and allow us to provide feedback to you on energy reductions. In order to ensure program compliance DHCD may share with the utilities and fuel or energy suppliers providing your energy, the fact you participate in the DHCD Empower program, the name of your contractor(s) and the type of work done. This data may also be used by our own program research staff for program evaluation purposes. We take the security and privacy of your information very seriously. Except as provided in this consent. We will never sell, rent, or otherwise release personal data to outside parties.
