1 Introduction

The Department of Housing and Community Development (DHCD) administers a variety of State and federal programs that finance the development of affordable rental housing. These programs include, but are not limited to, the Low Income Housing Tax Credit (LIHTC), the Rental Housing Program (RHP), Rental Housing Works (RHW), the Partnership Rental Housing Program (PRHP), the HOME Investment Partnerships Program (HOME), and the Multifamily Bond Program (MBP).

While there are variations between these programs based on the underlying source of funds, State and federal requirements applicable to specific funding sources, and State policy goals, DHCD seeks to align many of the administrative processes that accompany these programs. This alignment makes these programs more user-friendly and contributes to operating efficiencies for DHCD and its partners, including owners, investors, and managers of properties financed by DHCD resources.

This document is one of three (3) publications that specifically address policies and procedures for disbursing and tracking funding for affordable rental housing developments financed by DHCD. The three (3) documents are:

1) Guide to Project Development Costs

2) Guide to Draw Procedures

3) Guide to Cost Certification

Together, these documents were developed to provide borrowers/mortgagors, general contractors, and certified public accountants with important information to assist them in the preparation and submission of <u>draw requests</u> and <u>cost certifications</u> following completion of multifamily rental projects. These documents serve as a complement to the Multifamily Rental Financing Program Guide (the "Guide") and Qualified Allocation Plan for Low Income Housing Tax Credits (the "QAP"). Additionally, these document complement but are not a substitute for federal and state laws and regulations.

Because of the complexity of the rules governing DHCD's multifamily rental financing programs, all participants are urged to seek appropriate legal and accounting advice regarding construction-related matters, draw requests, cost certifications and other matters associated with the disbursement of DHCD funding. Borrowers/mortgagors and general contractors may engage accounting and legal representation of their choice without DHCD approval, and are urged to do so at an early stage in the processing/underwriting of DHCD financing.

All questions regarding this document should be directed to Alvin Lawson, Multifamily Construction Finance Team Leader via email at <u>Alvin.Lawson@Maryland.gov</u>, via phone at 301-429-7718, or by mail to DHCD at 7800 Harkins Road, Lanham MD 20706.

2 Definitions

The Department classifies project development costs into seven (7) primary categories, which are listed below. These categories are used in the Department's underwriting and financial review, and various Departmental forms (i.e. Forms, 202, 406 and 101) are organized accordingly. The 7 categories are:

- 1. Construction or Rehabilitation Costs
- 2. Fees Related to Construction or Rehabilitation
- 3. Financing Fees and Charges
- 4. Acquisition Costs
- 5. Developer's Fee
- 6. Syndication Related Costs
- 7. Guarantees and Reserves

Definitions of key terms used throughout this document are provided below.

2.1 Change Order

Means any amendment or modification of the Contract Documents approved by CDA and occurring after the Initial Closing.

2.2 Completion Date

Means the Completion Date specified in the Construction Contract.

2.3 Cut-Off Date

Means 120 days from Substantial Completion.

2.4 Draw Request

Means a request for disbursement of the Loan proceeds and any other funds held by CDA for Project Construction prepared by Borrower and delivered to CDA.

2.5 Draw Schedule

Means a schedule prepared by Borrower and delivered to CDA showing the amount Borrower anticipates drawing and the anticipated date of each draw during the Construction of the Project.

2.6 Field Progress Meeting

Means the monthly meetings among CDA, Borrower, General Contractor, Architect and such other parties.

2.7 Final Closing

Means the date on which the final principal amount of the Loan is finally accepted and approved by CDA.

2.8 Initial Closing

Means the date of the initial closing of the Loan.

2.9 Loan Documents

Means this Agreement, the Note, the Deed of Trust, the Regulatory Agreement and any other instrument or agreement evidencing or securing the CDA Loan(s), including any certificate or other document executed and delivered in connection with the Loan.

2.10 Note

Means the Borrower's Deed of Trust Note to CDA in the principal amount of the CDA Loan, secured by the Deed of Trust, evidencing Borrower's obligation to repay the CDA Loan and specifying the terms of repayment.

2.11 Soft-Cost

Means Fees Related to Construction or Rehabilitation & Financing Fees and Charges.

2.12 Substantial Completion

Means the date when (a) the rehabilitation or construction and equipping of the Project has been fully completed in a good and workmanlike manner and according to the Contract Documents, in full compliance with all applicable Legal Requirements of any Legal Authority, except for punch list items approved by CDA; (b) all certificates of use and occupancy have been issued by all appropriate Legal Authorities for every unit in the Project; and (c) the Inspecting Consultant or Architect has issued an AIA Form G-704 (Architect's Certificate of Substantial Completion).

3 Overview of the Draw Process

This guide specifies the procedures and requirements applicable to the processing of monthly draw payments for DHCD loans and grants. Submission of a complete and accurate draw package in accordance with these instructions will expedite processing and ensure timely approval and payment of a draw.

Construction draw processing is part of the construction loan administration processing stage. This stage begins with the initial loan closing and continues through Cost Certification and Final Closing. DHCD administers the draw process with the following goals in mind.

- 1. Ensure that the DHCD loan(s), as well as all other project sources are distributed in accordance with the loan documents, the approved budget and the intent of the loan underwriting.
- 2. Ensure that the project sources and uses are kept in balance so that at all times sufficient funds remain to complete the construction and rent-up of the project.
- 3. Provide for the timely and efficient disbursement of DHCD loan funds.
- 4. Ensure the efficient review and approval of change orders and budget changes when necessary.

DHCD is committed to the timely processing of draw requests. DHCD will review each submitted draw request for completion and accuracy. Complete draw requests will be processed within 10 days (15 for initial closing draw) of receipt.

3.1 Draw Requirements

3.1.1 Documents and Forms

- 1. A complete draw request will include the forms listed below. Please see Section *IV. Forms Instruction for Use* for detailed instructions on how to use and complete each form.
 - i. Mortgagor's Draw Requisition (CDA Form "406") (Exhibit A)
 - ii. Coversheet for Support Documentation (detail by budget line item) (Exhibit B).
 - iii. Invoices and other support documentation (attached to each detail coversheet).
 - iv. If applicable, the approved Soft Cost Changes Order Request (CDA Form 407) (Exhibit C)
 - v. Contractor's Application for Payment (AIA Form G702) (Exhibit D)
 - vi. The Continuation Sheet (AIA Form G703) (Exhibit E)
 - vii. If applicable, the approved Change Order (AIA Form G701) (Exhibit F)
 - viii. If applicable, lien wavers required by CDA.

*Forms and instructions for use are included in the noted Exhibit

2. Draw requests for some loans (i.e., FHA-Insured loans, etc.) may require the submission of forms in addition to those listed above. If this is the case with your particular loan, CDA will provide this information to you at the time the commitment is issued.

3.1.2 Additional Policies and Procedures – Draws for Initial Closing (Initial Draws)

- 1. *Processing Timeframe.* A minimum of 15 working days is required to process an initial draw. A loan may not go to initial closing without an approved initial draw.
- 2. Initial Draw Checklist See Exhibit H

3.1.3 Policies and Procedures – Subsequent Draws

- 1. *Processing timeframe.* After initial closing, each subsequent draw request shall be submitted at least ten working days prior to the anticipated payment
- 2. Construction Change Orders. Only construction change orders approved by the CDA Construction staff assigned to the project will be paid as part of a draw. The change order (AIA Form G701) must have the approvals of the architect, contractor and owner before being submitted.
- 3. *Soft Cost Change Orders*. Soft cost overruns may occur during construction. To document the overrun and request the transfer of soft cost contingency to the appropriate line item, the Borrower must file a CDA Form 407.

4. Using savings to cover soft cost shortfalls. Documented savings from soft cost line items may be used to fund soft cost shortfalls in other line items with the prior approval of CDA. Use CDA Form 407 to request approval. The form must include the reason for the savings and an explanation for the overruns.

3.1.4 Other Draw Related Issues

3.1.4.1 Loan in Balance

The DHCD loan must remain in balance at all times. The loan is out of balance when the total development cost, as estimated by DHCD, exceeds the funds available to construct the project.

If at any time during the construction period the loan is out of balance, the developer must fund any shortfalls, and DHCD's funds may be withheld until assurances are made that project can be completed as anticipated.

3.1.4.2 Developer Fee Disbursement

For transactions involving Rental Housing Funds (RHF), DHCD may allow up to 25% of the projected non-deferred portion of the budgeted developer's fee to be disbursed at initial closing or through substantial completion, as evidenced by the issuance of an acceptable certification of substantial completion by the project architect. At substantial completion, DHCD may allow an additional 25% of the projected non-deferred portion of the budgeted developer's fee to be disbursed. The remaining non-deferred developer's fee is disbursed only after the project is 100% complete, a cost certification is accepted by DHCD, and DHCD's final closing requirements have been completed.

Developer's fees may be paid only from equity, cash flow, or other non-DHCD sources of funds, if DHCD loans are not in default, and if Developers continually perform satisfactorily.

3.2 Submission of a Draw Request to CDA

When your draw request is complete and all support documentation is attached, please bind it together in an orderly fashion and deliver to:

Construction Finance Team Leader Department of Housing and Community Development Community Development Administration 7800 Harkins Road Lanham, MD 20706

The ten (15 for initial) working days needed to process a draw will begin when CDA receives the draw package at 7800 Harkins Road.

4 Final Draw and Final Closing

4.1 Final Closing

The final draw and disbursement of DHCD loan funds for the Project will be made in conjunction with Final Closing. Final Closing on a DHCD loan occurs only after the completion, submission and approval of a Cost Certification Packet in accordance with the requirements outlined in the <u>Cost Certification Guide.</u> (See Exhibit I for Final Draw Checklist)

After DHCD completes its review of the Cost Certification Packet, a final reconciliation of total DHCD loan funds will be completed and the Borrower will be required to execute a <u>Final</u> <u>Determination of Loan Proceeds</u>.

4.1.1 Final Draw Issues

At Final Closing, CDA may use any moneys remaining in the construction contingency funds, to pay or reimburse Borrower for some or all of the increased construction costs due to previously approved Change Orders approved for construction purposes only.

If any landscaping or any other seasonal improvements cannot be completed due to season or weather conditions, the Borrower, General Contractor and CDA will consult and establish the cost of such improvements. An agreed upon amount will be held by CDA for Borrower until the landscaping or any other seasonal improvements are completed in accordance with the agreement with the General Contractor.

Any cost savings identified in a cost certification approved by CDA, excluding undisbursed construction contingency funds, may be used at CDA's discretion for one or more of the following:

- (a) Payment of Contracts Change Orders;
- (b) "Soft" cost overruns;
- (c) Project betterments approved by CDA;
- (d) Reduction of the DHCD Loan amount;

(e) Escrow, reserve or other accounts established in the manner required by CDA to be used for the benefit of the Project; or

(f) To pay any portion of the deferred developer's fee.

Instructions for Use:

- 1. The 406 must accompany each draw request. It will record the current approved development budget, budget adjustments from soft cost change orders, revised budget, previous approvals from last draw, the current costs being requested, the completed to date balance and the percentage completed by line item. This is to be completed for both the uses and sources sections of the draw request.
- 2. Provide project name, requisition number, borrower's name and amount of draw request in the upper section of this form.
- 3. Column A lists the approved development budget. Copy the approved development budget into Column A. The development budget recorded on this document must be identical, line by line, to the approved development budget at the time of initial closing. This development budget is commonly referred to as the "202" budget because it is recorded on CDA Form 202. The development budget is to be totaled and the funding sources are to be totaled. The total budget must equal the total funding sources. A request for payment is not complete and will not be processed for approval if Column A of the Form 406 does not agree with the Form 202.
- 4. Column B will only be used to revise the development budget through the soft cost change order process. The increase and decrease are to be recorded on the appropriate line items. Please note that the net effect to the total development cost will be zero. The sources section will not be affected.
- 5. Column C is the summation of Column A and Column B and equals the Revised Development Budget.
- 6. Column D will represent the amounts approved to date on the previous draw. This column will be blank on an initial draw but must be completed for all subsequent draws. Only previously approved amounts are to be entered in this column. Both sources (funds) and uses (costs) are to be included in this column. If the amounts in this column do not agree with the previously approved requisition(s), the draw is not complete and will not be processed until the column entries are corrected.
- 7. Column E lists the costs being submitted for payment in the current requisition. The costs listed for each line item in Column E must be supported by documentation, including invoices, AIA G702/703 forms, or similar support documentation. The support documentation must be indexed and attached to a Coversheet for Support Documentation (Attachment C). A separate Attachment C is required for each line item.
- 8. Column F shows the costs completed to date and is the sum of Column D and E. The approved costs must always equal the total sources disbursed.
- 9. Column G shows the percentage of the project complete to date and is completed by dividing column "F" by column "C" for each line item.
- 10. Column H is for CDA's use only. This column will be used to note the amounts approved by CDA for the particular line item. Do not enter any data into Column H.
- 11. The 406 must be signed and dated by the owner or the owner's representative. We will not accept a separate signature page. A signed 406 may be submitted by facsimile or electronically with the Department's advance approval.

Instructions for Use:

- 1. This form is used ONLY to change the approved development budget for nonconstruction categories. It may not change the final mortgage amount but may realign approved non-construction budget costs among line items.
- 2. Provide the borrower's name, the project's name and loan number, and the date of the request and the number of the request. Use a sequential numbering system separate from that of the hard cost change orders. Please allow 15 working days for the soft cost change order to be processed.
- 3. The form must be signed by the borrower and submitted to the assigned Construction Finance Manager. The Construction Finance Manager will obtain the necessary approvals from the loan underwriter and return a copy of the approved form to you.
- 4. The total of the "Transfers From" column on the form must equal the total of the "Transfer To" column.
- 5. If savings in a line item are to be used to fund a cost increase in another line item, a justification must be provided for the line item changes. You need only justify the increased cost if drawing from the soft cost contingency. Please provide a clear explanation for the changes.

Instructions for Use:

- 1. The AIA G702 (**Exhibit D**) must include the name and address of the owner, contractor, project, and architect, as well as the application number, period covered, project number and contract date.
- 2. The AIA G702 must be signed and dated by the contractor and notarized.
- 3. The architect must sign and date the AIA G702.
- 4. It is essential that the AIA G702/703 match the approved CDA Form 212/215. If the amounts differ from the approved budget as evidenced by the 212/215, the request for payment will be returned to the borrower.
- 5. The invoice for the bond premium must be included with the AIA G702/G703. Approval of this cost will be denied until CDA receives the invoice.
- 6. The approved construction contract amount is to be entered on line 1 of the AIA G702. The total of all change orders approved by CDA is to be entered on line 2 of the form. Line 3 is the total of the original contract plus all approved change orders.
- 7. Line 4 is the total completed-to-date from column G of the AIA G703.
- 8. Retainage (line 5) is to be calculated by multiplying line 4 by the Applicable Retainage percentage.
- 9. Line 6 is all work-in-place less retention (line 4 minus line 5).
- 10. Line 7 lists all previous work approved for payment from the previous application (line 6 from the previously approved AIA G702).
- 11. Line 8 represents the amount to be approved for payment on the current requisition. (line 6 minus Line 7).
- 12. Line 9 represents the amount of work to be completed on the contract (line 3 minus line 6).
- 13. Do not add unapproved change orders to the construction contract amount (AIA G702 and G703).

Exhibit E: The Continuation Sheet - AIA Form G703

Continuation Sheet

CAUTION: You should sign an original AIA Contract Document, on which this text appears in RED, An original assuras that changes will not be obscured.

All Document 670314 - 1992. Copyright 0 1993, 1985, 1985, 1987, 1970, 19

Instructions for Use:

- 1. The AIA G703 (**Exhibit E**) must include the name and address of the owner, contractor, project, and architect, as well as the application number, period covered, project number and contract date.
- 2. Columns A, B and C of the AIA G703 are to be copied from the approved CDA form 212 (approved construction budget).
- 3. Column D of the AIA G703 is carried forward from the work-in-place on the previously approved AIA G703.
- 4. Column E represents the current work-in-place or the amount of work completed for this period.
- 5. Column F is used to account and approve for payment materials that are not in place but have been delivered to the site or are being warehoused. Invoice copies for all stored materials must be attached to the contractor's requisition (AIA G702/G703). If materials are stored off-site, a certificate of insurance must accompany the invoices. The invoices are to be totaled and must equal the amount requisitioned on the AIA G703.
- 6. Column G is the total of columns D, E and F.
- 7. The non-lettered column between G and H represents the percentage of completion. This is computed by dividing Column F by Column C.
- 8. Column H represents the work that is not in place. This is computed by subtracting Column G from Column C.
- 9. Column I represents the amount of retainage to be held for each line item. This is computed by multiplying Column G by 10%.
- 10. CDA will approve calculation of builders' overhead, builders' profit and the general requirements on the AIA G703 based on the percentage of completion. It will be necessary to provide a subtotal line before computing these costs. The builders' fees are calculated by dividing the total construction contract (net of fee) into the work-in-place. That percentage times the budgeted fee is the total amount of the fee that we will approve for payment. The difference between last period's fee and the current fee calculation is the amount to include as work-in-place.
- 11. Use a separate AIA G703 when requesting payment approval for change orders. A grand total is to be added at the bottom of this page to include all work in place.
- 12. Work-in-place (net of retainage) for this period is to be entered onto the construction line item of the CDA FORM 406. Current change orders (net of retainage) are to be entered on the **hard cost contingency line item** of the CDA FORM 406.

Instructions for Use:

Construction Change Orders (AIA G701) may only be included on the draw **after** all approvals. Submit the change order for the CDA Construction Administrator's approval after obtaining the approvals of the architect, contractor and owner. You will receive a copy of the approved change order (face sheet only). Please complete all the information that is requested on this form.

Exhibit H: Initial Draw Checklist Multifamily Initial Draw Checklist

Project Name: ______ Expected Closing Date: ______

The Multifamily Construction Finance Team has 15 business days to approve and fund the initial closing draw.

The Multifamily Underwriter must work with the borrower to review and assemble the draw packet. The following requirements should be met before passing the draw to the Multifamily Construction Finance Team for processing. The borrower should anticipate a cut in any line item that does not have adequate supporting documentation.

- □ Signed Commitment(s) for Multifamily Loan(s)
- □ Signed and completed CDA Form 406 with required back-up documentation. The CDA Form 406 should be signed by <u>both</u> the borrower/developer <u>and</u> the CDA Multifamily Underwriter responsible for the project before being submitted to the Construction Finance Team.
- Copy of estimated settlement sheet and the title company's wiring instructions for the first draw. If a wire is not possible or requested, then payee information and the address of where to send the check should be provided.
- □ Copy of the borrower's W-9.

In preparing for the first draw, the Multifamily Underwriter will have reviewed and/or completed the following documents. These documents will be retained by the Underwriter and, as appropriate, included in the Closing Binder. These documents do not need to be provided to the Multifamily Construction Finance Team.

- □ Anticipated Draw Schedule. The sources and uses on the Draw Schedule must tie out to CDA Form 202. The Draw Schedule must also comply with the Inter-creditor Agreement.
- □ Completed CDA Form 202.
- □ CDA Forms 212 and 215 Signed by Construction Supervisor. These documents must equal the construction amounts on the CDA Form 202 and CDA Form 406.
- Construction Contract---approved by Construction Team. Approval of the Construction Team will be documented by initialing and dating the cover page of the Construction Contract. The contract amount must tie out to the amount included in CDA Form 406.
- □ Architect Agreement and Engineering Agreement (or service engagement letter) is to be approved by the construction staff. Approval will be documented by initialing and dating the cover page of the Architect/Engineering Agreement and all other contracts. The contract amount must agree with the development budget and the approved contract amounts.
- □ Appraisal

Exhibit I: Final Draw Checklist

Loan Close-Out Documents

Financial Documentation

- Mortgagor's Cost Certification
- Contractor's Cost Certification

Construction Documentation

- Substantial Completion Certificate
- □ Final Change Order Summary
- Supervising Architect's Certification
- Structural Engineer's Certification
- Mechanical Engineer's Certification
- □ Electrical Engineer's Certification
- □ Approved As-Built Drawings
- **Use and Occupancy Permits**
- □ Final Release of Liens
- □ Latent Defect Bond Letter of Credit
- □ Finalized Site related permits (if applicable)
- □ Inspecting Engineer Certification (if applicable)
- □ Final Environmental Clearance Certificate
- □ Energy Star Certificate (per the Guide 4.12.2.1)
- Green Building Certification (per the Guide 5.5.1 & Sponsor's application)
- □ Architect's acknowledgment of punch list items
- Final Survey with appropriate Surveyor's Certification : An Alta/ASCM Survey or boundary survey for approved rehabilitation projects. The survey must be accompanied by a Surveyor's Report.
- Certificate of Insurance for Completed Development
