

NOTE: All projects requiring rehabilitation must meet the following requirements:

1. Plans and specifications prepared by an accredited Architect;
2. A Capital Needs Assessment prepared by a third party (Architect, engineer, etc.) documenting the remaining useful life of all major systems and components outlined below.
 If the remaining life of a component is less than the affordability period, the component must be repaired or replaced; an adequate replacement reserve must be established and underwriting must include regular payments to the reserve account.
3. DHCD Construction staff must review prepared Plans and specifications against the Capital Needs Assessment along with a site inspection of the property to confirm all required rehabilitation work conforms with required mitigation outlined below.
