Fall 2020 Competitive Funding Round FAQs
As of August 7, 2020

Application Submission:

Question: Can electronic signatures be used or are original signatures required?

Answer: Original signatures are required for all signatures in the application binder.

Question: How does the electronic application submission work?

Answer: Email dhcd.qap@maryland.gov to request a Google Drive folder for each project. The folder is divided into subfolders to mirror the application submission kit. There is also a separate folder for documents related to MBP/4% LIHTC projects if you are submitting a “twinning” deal. Once you receive the project folder you should begin uploading your application documents into the correct subfolders. Access to the Google Drive folders will be revoked at 2 PM on Wednesday, September 9th, so make sure everything is uploaded prior to the application deadline.

Question: Does the hard copy of the application need to be submitted by the application deadline?

Answer: Yes, one (1) hardcopy of the completed application must be submitted by 2 PM on Wednesday, September 9th. This includes one (1) paper copy delivered to DHCD at 7800 Harkins Road, Lanham, MD 20706, and one (1) electronic copy uploaded into the project’s Google Drive folder. We will not require the CD/thumb drive since the entire application will be submitted electronically. Incomplete applications will not be considered.

Question: When do I need to enter data on my project into the Multifamily Information System (MIS)?

Answer: Applicants should work to complete entry of their projects in MIS by September 9, 2020. If there is an issue with the submission, DHCD may extend the submission through MIS up to two weeks through September 23, 2020.
Threshold: §3.14 Additional Criteria Applicable Only to Rehabilitation

Question: The Building Evaluation Report Guideline in Exhibit E.1 of the Application Submission Kit for 15% of the units in a rehabilitation project to be walked potentially poses a safety issue and liability in a COVID environment to all involved. There has also been resistance to “outside people” entering occupied units during this time. Is there any relief for this requirement?

Answer: A waiver may be requested for the walk through requirements of a minimum of 15% of the rehabilitation units. If granted, the waiver will allow rehabilitation projects to meet the project walk through requirements by conducting a survey of all vacant units in the property up to a number equaling 15% of the building’s units or 5% of the units whichever is greater. The 5% number may include vacant units.

Competitive Scoring: §4.4.5 Policy Incentives

Question: Can a project receive policy incentive points in more than one category?

Answer: Policy points will be awarded based on the final project scores, excluding any possible points in Section 4.4.5. As long as a project is among the top 2 or 3 highest scoring projects, depending on the category, they are eligible to receive those points, up to a total of five (5) points. Therefore, it is possible to receive points in more than one category. Please note that all categories will be assessed based on the final project score excluding points awarded in Section 4.4.5.

Question: What documentation needs to be provided for Choice Neighborhood projects to receive points in Section 4.4.5?

Answer: Documentation of a Choice Neighborhood designation may include an award notification from HUD, letters of intent to provide financial assistance, or other documentation as proof of the designation.

Competitive Scoring: §4.4.1 Income Targeting

Question: Just to clarify for 20% AMI units, does this mean that if a project includes 20% AMI units, they won't be counted for income targeting if they have vouchers? And/or that 20% AMI units are not allowed to have PBV/PBRA subsidy?
Answer:
Under 4.4.1, income targeting, units supported by a PBV, PBRA or similar federal may count as income targeted units as low as 30% of the AMI. Units targeted at 20% of the AMI, excludes such federal subsidies designed to assist households at 30% of the AMI.

**Question:** If fee is reinvested as a rental subsidy for ELI units, are these units removed from the calculus for deep income targeting points (as is done with typical project-based rental subsidies such as Section 8)?

**Answer:** No, fees reinvested as rental subsidy for ELI units are counted in income targeting points. This applies to project-based rental subsidies such as Section 8 as well, with the caveat that Section 8 units won’t be credited as targeted below 30%.

**Competitive Scoring: §4.4.4 Tenant Services**

**Question:** If I chose the CORES designation for a project funded in the 2019 Round can I still choose the CORES designation for Tenant Services even if I haven’t received the certification yet?

**Answer:** If you chose the CORES designation for a project funded in the 2019 Round, you will need to submit either proof of CORES certification or a copy of the Pre-Screen Approval Email from CORES to demonstrate that you have initiated the application process and believe that you meet their threshold requirements.

**Competitive Scoring: §4.5.1 Direct Leveraging**

**Question:** Does HTF and State HOME funds count as state funds for leveraging?

**Answer:** Yes, under Section 4.5.1, State resources include DHCD-administered rental housing resources, which include HTF and State HOME funds. Project CORE and Strategic Demolition funds, are the only DHCD funds specifically mentioned as leveraged funds in this section.

**Question:** How do I calculate leveraging for a “twinning” project?

**Answer:** To calculate the leveraging for twinned projects, applicants should use the updated 202 (dated July 2020). After entering the appropriate project characteristics, enter the LIHTC eligibility for the 9% and 4% in section 2. For total DHCD-Non-LIHTC Subsidy, enter the total CDA and DHCD resources and 50 percent of the Tax-exempt Bonds.
In the calculation, the combined adjusted uses, based on the percentage of affordability minus the non-leveraged uses determine the total amount of leveraged funds counted.

To obtain the combined leverage percentage, the total leveraged uses (capped at MBP/4% LIHTC at 50%) is divided by the combined adjusted uses. The final score is capped at the lower of the combined projects leveraging evaluation or an additional two points for in addition to the 9% project evaluation.

6. Leverage Evaluation (including 2 point limit for Twinning projects)

| Non-Rural | 5.81 | NA |
| Rural     | NA   | NA |

**Score**: 7.81

**Question**: Are both short-term and long-term/perm bonds included when counting 50% of MBP funds for twinning projects?

**Answer**: Yes.

**Competitive Scoring: §4.5.3 Construction Cost Limits**

**Question**: Has the Department updated the Construction Cost limits outlined in Section 4.5.3 of the Guide?

**Answer**: The construction cost limits have been reviewed and were included in Multifamily Notice 20-7 released on June 8, 2020. They are also on our website at: [https://dhcd.maryland.gov/HousingDevelopment/Pages/ConstructionCostLimit.aspx](https://dhcd.maryland.gov/HousingDevelopment/Pages/ConstructionCostLimit.aspx) The table below includes the current construction cost limits:
<table>
<thead>
<tr>
<th>Type of Building</th>
<th>New Construction</th>
<th>Rehabilitation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cottage, Single Family, Semi-detached Dwellings, and Townhomes</td>

<td>$143</td>
</tr>
<tr>
<td>Elevator Buildings of 5 or more stories</td>
<td>$191</td>
<td>$148</td>
</tr>
</tbody>
</table>

**Question:** Are adaptive re-use and gut rehabilitation projects evaluated as new construction or rehabilitation projects?

**Answer:** Per Section 3.13.3 gut rehabilitation and adaptive re-use projects will be considered new construction projects for scoring purposes. This includes calculating construction costs.

**Competitive Scoring: §4.6.2 Energy Efficiency**

**Question:** Section 4.6.2 states that projects must certify that they will achieve Zero Energy Ready Home designation in order to receive six (6) points. How do I certify?

**Answer:** A certification for Zero Energy Ready Home designation has been added to Exhibit E of the Application Submission Package dated August 2020.

**Question:** Section 4.6.2 states that two (2) points will be awarded for any project utilizing heat pump technology for domestic water heating. Are these points only applicable to rehabilitation projects or are they available for all projects?

**Answer:** The two (2) points for projects utilizing heat pump technology for domestic water heating are available to any project, except those seeking Zero Energy Ready Home designation. A chart is included below to demonstrate the various paths available depending on whether a project is new construction or rehabilitation.
New Construction, Gut Rehabilitation, and Adaptive Re-Use

<table>

Miscellaneous:

**Question:** Are Solar Systems, Security Systems, and Playground Soft or Hard costs?

**Answer:** Solar Systems, Security Systems, and Playgrounds are considered hard costs and must be included in the construction budget. Budgets that include these costs as soft costs will not be accepted.

**Question:** 2019 or 2020 income limits?

**Answer:** Applicants should use the updated income limits for their submissions. The 2020 income limits were recently published to our website at

[https://dhcd.maryland.gov/HousingDevelopment/Pages/MFLibrary.aspx#appsother](https://dhcd.maryland.gov/HousingDevelopment/Pages/MFLibrary.aspx#appsother)

**Twinning:**

**Question:** Can a twinning deal be all in one building? And structured as 2 condos that share common areas / amenity space?

**Answer:** DHCD does not require separate buildings under the twinning structure.
Question: When submitting market studies for twinned projects, do you require the capture rate for both projects.

Answer: Yes, the market study should describe the capture rate 9% project and the combined projects.
