Introduction

On January 5, 2016, Governor Larry Hogan announced Project C.O.R.E., a four-year partnership with Baltimore City and the Maryland Stadium Authority to remove blight through demolition or stabilization as a catalyst for redevelopment and reinvestment. The Maryland Department of Housing and Community Development (the "Department"), the Maryland Stadium Authority (the "Authority"), the Mayor and City Council of Baltimore, acting through the Baltimore City Department of Housing and Community Development (the "City"), forming a three-track partnership, entered into a Memorandum of Understanding (MOU) for Demolition, Stabilization, and Deconstruction on February 10, 2016. The goal of this partnership is to improve economic opportunity, encourage redevelopment, and improve quality of life in Baltimore City neighborhoods. This report provides a summary of Project C.O.R.E. activities from January through March 2019.

Demolition and Environmental Protocols – Maryland Stadium Authority (MSA)

The Department, the City, and the Authority have worked closely with other agencies and interest groups to establish guidelines for the removal of blight as outlined in the Project Manual. The Project Manual establishes demolition and environmental safety protocols. These best practices include:

- Environmental Assessments/Hazmat Survey: complete Site Assessment/Hazardous Material Survey on all properties to identify asbestos, lead, polychlorinated biphenyl (PCB), or any other potential hazards.
- Onsite Compliance Monitoring: onsite environmental/protocols compliance monitoring services
- Dust Monitoring: dust monitoring during all demolition and debris removal operations to monitor the effectiveness of dust suppression procedures and potential exposure levels.
- Fill Requirements: clean fill for all excavations and prohibition of use of crushed demolition debris.
- Sidewalk Replacement: replacement of sidewalks along public sides of demolished properties.
- Site Security: detailed site security measures to ensure the safety of the general public.

Stabilization and Preservation

The Department and the Authority are required under the Maryland Historical Trust Act of 1985 to consult with the Maryland Historical Trust to determine whether or not the work would adversely affect historic properties that fall within boundaries of historic districts in Baltimore City. To that end, a programmatic agreement was signed and executed on September 8, 2016. One aspect of the agreement is that a minimum of 10 percent of Project C.O.R.E. resources will go toward building stabilization projects.

Property Identification

Project CORE funds are targeted primarily in areas of the city which have the highest levels of vacancy. Baltimore City has 297 distinct neighborhoods, of which 120 are in a Stressed Housing Market, according to Baltimore City's 2014 Housing Market Typology. A Stressed Market is one where 6% to 30% of the housing stock is vacant. Since the launch of Project C.O.R.E. the Department and the City have worked to develop four strategic lists of properties for demolition or deconstruction. These lists are referred to as the "phases" of the C.O.R.E. initiative.

For Fiscal Year 2016, the Department and the City identified and executed an initial list (Phase 1) of 455 blighted properties for demolition. The FY17 list (Phase 2) was executed on October 11, 2017 and identified 124 properties for demolition. During FY18 Quarter 4, both the Phase 3 and Phase 4 lists were officially executed. Phase 3 identified 491 properties for demolition and or deconstruction while Phase 4 identified 512 properties for demolition or deconstruction.

In an effort to reduce violent crime and increase the pace of demolitions, the Department and the City identified properties in high crime areas that can also move through legal due process at an accelerated rate, enabling the Maryland Stadium Authority to expand its workload. As of Quarter 4 of FY19, Baltimore City has released 18 Notices to Proceed (NTP) to containing 976 properties for demolition or deconstruction. The City is continuing to undertake the legal processes necessary to prepare remaining properties for either demolition or deconstruction.

Redevelopment

The State's \$75 million investment in demolition, deconstruction, and stabilization activities is being matched at a minimum rate of 25 percent by Baltimore City. Furthermore, Project C.O.R.E. has been supported by complementary Department financing, including Multifamily Housing, Neighborhood BusinessWorks, Single Family Housing, Community Legacy, and the Baltimore Regional Neighborhood Initiative. This complimentary DHCD funding is leveraging substantial additional

private sector investment. From the inception of Project C.O.R.E. through June 2019, the programs have invested \$471,645,023 in Baltimore City - leveraging \$1,900,870,808.70 in other private, public and philanthropic dollars for total project costs of \$2,372,515,831.70. Additionally, the aforementioned programs have supported \$159,549,527 in awarded funds in Project C.O.R.E. areas leveraging \$844,886,936 for total project costs of \$1,004,436,463.

The following chart details how Project C.O.R.E. funds have been leveraged. Please note that Project C.O.R.E. areas (E, F, G, and H) are defined in accordance with Baltimore City's 2014 Housing Market Typology.

1) All data pulled from clean data and geocoded to verify if the given address is within the "Project C.O.R.E. Areas" (Baltimore City 2014 Housing Typology - E, F, G, or H). 2) Total Project Cost includes the Award Amount and State Funds and should not be summed to avoid double counting. 3) Total Project Costs for active fiscal years may fluctuate depending on a project's standing within the award management cycle. 4) SDF-CORE numbers reported above include the projects representing encumbrances to Maryland Stadium Authority, the University of Maryland and other administration related to the MSA strategic demoliton track. This is not representative of what has been disbursed to date. 5) State Funds is the combination of the the following programs: Rental Housing Program (RHLP), Rental Housing Works (RHW), Partnership Rental Housing Program (PRHP), Shelter & Transitional Housing Facilities Grants (THG), and Financial Adjustment Factor (FAF).

Blight Removal Status: Fiscal Year 19 Quarter 4

From January 2016 through June 2019, the Authority, the City of Baltimore, and the Department removed a total of 3,100 units of blight through demolition, deconstruction, or stabilization. The summary chart below highlights key information²:

Project C.O.R.E. Units of Blight Removed 1/1/2016 to 6/30/2019				
			Total Completed	
	Completed	In Process	and In Process

Total	3,100	1,034	4,134	

Project C.O.R.E. Request for Applications

Through the Department's Project C.O.R.E. Request for Applications (RFA) competitive application process, funding has been made available for redevelopment projects that can move forward quickly, achieve significant leverage and redevelopment goals, and encourage innovation and creativity by the private sector and nonprofit sponsors committed to Baltimore City's revitalization.

Specific activities eligible for Project C.O.R.E. funding are:

- Acquisition: costs associated with purchasing vacant buildings and/or land. Properties may be owned by private or public entities. Related-party acquisitions will be subject to additional review by DHCD.
- Demolition: cost to demolish blighted structures.
- Stabilization: cost to complete structural and other critical repairs necessary to stabilize an existing structure, remove any materials that will not be used in the completed project, remove hazardous materials (e.g. asbestos, lead paint, etc.) and other costs approved by DHCD that are associated with preparing a currently vacant structure for redevelopment.
- Site Development: cost associated with the preparation of vacant site for new construction activities, including the removal of unsuitable soils/fill, hazardous materials, and the installation of new infrastructure (off-site and onsite).
- Architectural and Engineering: cost of architectural and engineering professional services directly associated with demolition, stabilization and site development aspects of the proposed project.

Projects that significantly build upon existing community strengths and assets are a priority. These strengths and assets include but are not limited to:

- Proximity to 21st Century School investments.
- Proximity to Anchor Institutions (such as universities and hospitals).
- Proximity to other major investments, including major rental preservation projects such as the Rental Assistance Demonstration (RAD) initiative.
- Proximity to transit and transit-oriented development, including the Maryland Department of Transportation BaltimoreLink and CityLink corridors of focus.
- Implementation of recent or new comprehensive plans, such as Baltimore City's Green Network Plan.
- Reuse of landmark historic buildings.
- Projects that build upon and expand residential market strength for instance through homeownership in designated historic districts.

SECRETARY

² In Process: Demo has started or property was released for demolition. Baltimore City Stabilizations reporting as of June 2019. RFA reporting as of July 2019.

The Department has awarded 71 projects through the RFA process for a total of \$ 36.3 million. State funds will leverage about \$196 million in other public, private and philanthropic dollars, for a total project cost exceeding \$233 million. In addition to Project C.O.R.E.'s demolition and deconstruction activities, the RFA process allows the Department to fund predevelopment activities that will put existing vacant lots and buildings back into use. Project C.O.R.E. RFA funding will support the new construction of more than 300 housing units and the expansion of the city's inventory of usable green space. Individual project award details for FY16 through FY19 are included in the Exhibits portion of this report.³

SDF-CORE RFA Award Summary				
		Total Award	Total Project	
FY	No. Awards	Amount	Cost	
2016	10	\$2,775,000	\$17,705,657	
2017	31	\$16,110,000	\$121,369,679	
2018	24	\$14,515,000	\$89,224,612	
2019	6	\$2,954,884	\$4,723,430	
Totals	71	\$36,354,884	\$233,023,378	

The Department received 58 responses to the Request for Information (RFI) totaling \$128 million in potential requests. In the FY20 grant application round, the Department received 56 Project C.O.R.E. applications requesting \$77,185,413.

Community Outreach & Events

As the Project C.O.R.E. initiative progresses, the Department spotlights Project C.O.R.E. activities. In Quarter 4, a demolition event at 1701 North Bradford Street in the Broadway East community of Baltimore celebrated the release of the 4,000th unit of blight marked for elimination. The demolition of vacant and blighted units will help support ongoing and future redevelopment projects in the area such as the Hoen Lithograph Building, the Mary Harvin Health & Wellness Center, and numerous rowhouse rehabilitations. The event was well attended by the community as well as state and local government officials including Governor Larry Hogan, Baltimore City Mayor Jack Young, Councilman Robert Stokes, and Secretary Kenneth Holt of the Maryland Department of Housing and Community Development.
