# INDEPENDENT AUDITORS' REPORT 

Office of the Secretary
Department of Housing and Community Development

We have audited the accompanying combined financial statements of the Community Development Administration Revenue Obligation Funds (the Funds) of the Department of Housing and Community Development of the State of Maryland as of and for the year ended June 30, 2008, as listed in the table of contents. These combined financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on these combined financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the combined financial statements present only the Community Development Administration Revenue Obligation Funds and do not purport to, and do not, present fairly the financial position of the Department of Housing and Community Development of the State of Maryland as of June 30, 2008, and the changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the combined financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Community Development Administration Revenue Obligation Funds of the Department of Housing and Community Development of the State of Maryland as of June 30, 2008, and the changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The Supplemental Disclosure of Combined Changes in Fair Value of Investments and Mortgage-Backed Securities is presented for purposes of additional analysis and are not a required part of the combined financial statements. Such information has not been subjected to the auditing procedures applied in our audit of the combined financial statements and, accordingly, we express no opinion on it.

## NOTE 1 - AUTHORIZING LEGISLATION AND PROGRAM DESCRIPTION

The Community Development Administration (CDA) was created in 1970 by Sections 266 DD-1 to 266 DD-8 of Article 41 (now in Sections 4-101 through 4-255 of the Housing and Community Development Article) of the Annotated Code of Maryland to meet the shortage of adequate, safe and sanitary housing in the State of Maryland, particularly for persons or families of limited income. CDA is in the Division of Development Finance in the Department of Housing and Community Development (DHCD) of the State of Maryland.

The accompanying combined financial statements only include CDA's Revenue Obligation Funds (the Funds). CDA's other programs are not included. However, CDA has also separately issued combined financial statements for the Infrastructure Program Funds. Both the Revenue Obligation Funds and the Infrastructure Program Funds are enterprise funds of the State of Maryland and are included in the State of Maryland's Comprehensive Annual Financial Report.

Within each Fund in the Revenue Obligation Funds are separate accounts maintained for each obligation in accordance with the respective indentures. The following summarizes each of the Funds.

| Fund | Purpose |
| :---: | :---: |
| Single Family Program Bonds | To originate or purchase single family mortgage loans. |
| Multi-Family Housing Revenue Bonds | To provide construction and permanent financing for multi-family housing projects. |
| Housing Revenue Bonds | To provide funds to finance or refinance loans for various types of housing. As of June 30, 2008, Housing Revenue Bonds have primarily financed multi-family projects. |
| Residential Revenue Bonds | To originate or purchase single family mortgage loans. |
| General Bond Reserve Fund | To provide funds for payment of principal and interest on bonds and notes in the Revenue Obligation Funds to the extent revenues and assets specifically pledged are not sufficient. This Fund also provides for the payment of operating expenses of CDA. |

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## Basis of Presentation

The Revenue Obligation Funds are accounted for as enterprise funds. Accordingly, the accompanying combined financial statements have been prepared using the accrual method of accounting and on the basis of accounting principles generally accepted in the United States of America (GAAP).

## Generally Accepted Accounting Principles

CDA reports its financial activities by applying Standards of Governmental Accounting and Financial Reporting as promulgated by the Governmental Accounting Standards Board (GASB). CDA has adopted GASB Statement No. 20 Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting. Consequently, CDA applies all applicable GASB pronouncements as well as Financial Accounting Standards Board (FASB) Statements and Interpretations, APB Opinions, and ARBS of the Committee on Accounting Procedure issued on or prior to November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

CDA has adopted GASB Statement No. 34 Basic Financial Statements and Management's Discussion and Analysis. Under GASB Statement No. 34, net assets should be reported as restricted when constraints placed on net asset use are either: externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or are imposed by law through constitutional provisions or enabling legislation. Accordingly, all net assets of the Funds are restricted as to their use as all net assets are pledged to bondholders.

The Annual Financial Report may include a Management's Discussion and Analysis. Since CDA is an enterprise fund included in the State of Maryland's Comprehensive Annual Financial Report, a separate Management's Discussion and Analysis is not required in these financial statements. CDA prepares a Management's Discussion and Analysis for the General Accounting Division of the State of Maryland that is not part of these financial statements.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## Recent Accounting Pronouncements

In June of 2008, GASB published Statement No. 53 Accounting and Financial Reporting for Derivative Instruments, which will supersede GASB Technical Bulletin No. 2003-1 Disclosure Requirements for Derivatives Not Reported at Fair Value on the Statement of Net Assets. This Statement addresses recognition and measurement of derivative instruments and disclosure of information about derivative instruments. The disclosures of GASB Technical Bulletin No. 2003-1 have been incorporated in Statement No. 53, which will become effective for financial statements for periods beginning after June 15, 2009. CDA may elect to implement this Statement earlier. The Statement will require that all CDA interest rate exchange agreements (swaps) be reported at fair value in the Statement of Net Assets and that all swaps are tested for hedge effectiveness. Effectiveness is established if the changes in cash flows of the swaps substantially offset the changes in cash flows of the hedgeable items. The changes in fair values of the swaps, that are determined to be effective hedges, will be recognized as deferred inflows or outflows in the Statement of Net Assets. The changes in fair value of the swaps that are determined not to be effective hedges will be reported in the Statement of Revenue, Expenses and Changes in Net Assets. For the year ended June 30, 2008, CDA swaps are reported in accordance with GASB Technical Bulletin No. 2003-1 and are more fully described in Note 9.

## Cash and Cash Equivalents on Deposit with Trustee

Cash equivalents may include money market funds, repurchase agreements, investment agreements and any other investments, primarily obligations of the U.S. Treasury and U.S. Government Agencies, which have maturities of 90 or less days at the time of purchase. As of June 30, 2008, CDA's cash equivalents are invested in money market mutual funds which are more fully described in Note 3.

## Investments

Investments are principally governmental debt securities or investment agreements collateralized by governmental debt securities. Debt securities are stated at fair value, based on quoted market prices. Investments are classified as current or long-term based on the maturity date or call date. Callable investments are classified as current, if exercise of the call within the next fiscal year is probable. Investments are more fully described in Note 3.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## Mortgage-Backed Securities

These guaranteed securities are issued in connection with mortgage loans on multi-family projects. They are stated at fair value, based on quoted market prices. It is the intention of CDA to hold each of these securities to maturity or until the payoff of the related multifamily loan. Mortgage-backed securities are more fully described in Note 3.

## Mortgage Loans

Mortgage loans are carried at their unpaid principal balances, net of unamortized loan fees and expenses. Loan fees and expenses are deferred and amortized over the life of the related loans using the effective interest method. Any single family mortgage loan in foreclosure with a pending insurance claim is recorded as other receivables. See Notes 4 and 15 for additional information on mortgage loans and mortgage insurance, respectively.

## Allowance for Loan Losses

Substantially all the mortgage loans of the Funds are insured or guaranteed by agencies of the U.S. Government, the Maryland Housing Fund (MHF), or private mortgage insurers. Primary coverage levels range from $25 \%$ to $100 \%$ of the loan. CDA also has secondary pool insurance for loans in Single Family Program Bonds. CDA has established an allowance for loan losses on the uninsured portions of multi-family loans and on single family loans with private mortgage insurance. Management believes the allowance established is adequate based on prior experience and evaluations from DHCD's asset management group and a current assessment of probability and risk of loss due to default. See Note 4 for additional information on allowance for loan losses.

## Real Estate Owned

Real estate owned represents real estate acquired through foreclosure and is stated at the lower of cost or fair value less estimated costs to sell. Expenses incurred related to real estate owned are reported on the Combined Statement of Revenue, Expenses and Changes in Net Assets.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## Accrued Interest and Other Receivables

Accrued interest and other receivables include interest on loans and investments and outstanding claims on insured mortgage loans. On insured multi-family mortgage loans that are in default, CDA continues to accrue interest until receipt of a mortgage insurance claim. On insured single family and energy and rehabilitation loans, interest ceases to accrue after foreclosure. See Note 5 for additional information.

## Deferred Bond Issuance Costs

Costs incurred in issuing bonds are capitalized and amortized using the effective interest method for each respective bond issue. When bonds are redeemed early with mortgage prepayments, a proportionate share of the remaining unamortized costs is recognized as a loss on the Combined Statement of Revenue, Expenses and Changes in Net Assets. However, in an economic refunding, CDA defers unamortized costs and redemption premiums as an offset to the new bonds as more fully described in Note 10.

## Due from (to) Other Funds

Due from (to) other Funds records the pending transfers of cash between Funds which is primarily a result of receipts due to one Fund, but received by another, as more fully described in Note 13.

## Bonds Payable

Bonds payable are carried at their unpaid principal balances, net of unamortized deferred gain or loss for bonds refunded for economic purposes and original issue discounts or premiums. See Notes 6, 7, 8, 9 and 10 for additional information.

## Deposits by Borrowers

This account consists of escrows and reserves held by CDA on behalf of multi-family housing developments. CDA invests these deposits and, for reserves, allows earnings to accrue to the benefit of the mortgagor. Escrows represent amounts held by CDA for mortgage insurance and hazard insurance premiums and real estate taxes, all of which are generally paid annually and which are classified as a current liability. Based on the current year's reserve disbursements, CDA has estimated the current reserve liability. The balance of the reserves is classified as long-term. See Note 12 for further information on changes in long-term obligations.

# NOTES TO COMBINED FINANCIAL STATEMENTS - CONTINUED (in thousands) 

June 30, 2008

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## Rebate Liability on Investments

Regulations governing the issuance of tax-exempt debt place limitations on permitted investment yield on borrowed funds. Based on these regulations, CDA is required to periodically rebate excess earnings from investments to the United States Treasury. In addition, the liability also includes an estimate of the rebate obligation related to unrealized gains as a result of recording investments at fair value. Rebate liability is more fully described in Note 11.

## Mortgage Yield Limitations

All mortgage loans are subject to yield limitations under the Internal Revenue Service Code (the Code) in order for the associated bonds to maintain their tax-exempt status. At the time of bond issuance and over the term of the bonds, CDA determines and maintains compliance with the permitted mortgage yield on the loans. In certain bond refunding transactions, CDA transfers loans from prior series of bonds to the refunding series. CDA monitors the yield on these transferred loans to ensure that the composite yield over the term of the bonds is within the yield limitations of the Code. If at any time the composite yields on the transferred loans are out of compliance with the Code, CDA has certain remedies available to bring the yield into compliance. As of June 30, 2008, all mortgage loan yields are in compliance with the Code.

## Interest on Mortgage Loans and Mortgage-Backed Securities

Interest on mortgage loans and mortgage-backed securities is calculated using the effective interest method.

## Fee Income

CDA receives multi-family financing fees and single family commitment fees at loan origination. These fees are deferred and amortized over the life of the loan. Tax credit fees and administrative fees are recorded as earned.

## Origination Expenses

CDA pays originators of its single family loans an origination fee and a servicer release fee. On some single family loans CDA provides the borrowers with grants toward loan down payment and closing costs. These CDA expenses are deferred and amortized over the life of the loan.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## Administrative Support

In addition to expenses incurred directly by the Funds, CDA receives certain support services from other divisions of DHCD. Support services and the operating expenses of CDA have been allocated to CDA's General Bond Reserve Fund. The General Bond Reserve Fund records these expenses as invoiced by DHCD for the fiscal year.

For the year ended June 30, 2008, the total costs charged to the General Bond Reserve Fund were:

| Salaries and related costs | $\$$ | 5,778 |
| :--- | :---: | :---: |
| General and administrative costs |  | 3,521 |
|  | $\$$ | 9,299 |

The employees of CDA are covered by the Maryland State Retirement and Pension System and the costs of employees' retirement benefits are included in the salaries and related costs discussed above. See Note 16 for additional information.

## Revenue and Expenses

CDA distinguishes operating revenue and expenses from nonoperating items in conformity with GASB Statement No. 34. Operating revenue and expenses are identified as those activities that are directly related to financing affordable housing in the State of Maryland. CDA's activities are considered to be operating except for increases and decreases in the fair value of mortgage-backed securities. It is the intention of CDA to hold these securities to maturity.

## Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue, expenses, gains and losses during the reporting periods. Actual results could differ from these estimates.

## Combined Totals

The totals of similar accounts of the various Funds in the accompanying financial statements are presented for information purposes only. The totals represent an aggregation of the Funds and do not represent consolidated financial information, as interfund balances are not eliminated.

## NOTE 3 - CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES

Bond proceeds and revenues from mortgages, mortgage-backed securities and investments are invested in authorized investments as defined in the respective indentures and in CDA's Investment Policy until required for purchasing mortgage-backed securities or originating mortgage loans, funding reserves, paying bond debt service or redeeming outstanding bonds and notes, and funding program expenses. Authorized investments include obligations of the U.S. Treasury, U.S. Government Agencies, repurchase agreements, investment agreements, money market funds and certificates of deposit.

The following assets, reported at fair value and held by CDA at June 30, 2008, are evaluated in accordance with GASB Statement No. 40 for interest rate risk, credit risk, concentration of credit risk and custodial credit risk.

## NOTE 3 - CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES (Continued)

## Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses from rising interest rates, CDA's Investment Policy requires that the maturities of the investment portfolio are scheduled to meet the cash requirements for bond debt service, projected loan originations and ongoing operations.

As of June 30, 2008, the amortized cost, fair value and maturities for these assets were as follows:

|  | Amortized Cost |  | Fair <br> Value |  | Maturities (in years) |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Mortgage-backed Securities |  | 439,559 |  | 428,941 |  | - |  | - |  | - |  | - |  | 428,941 |
| Total | \$ | 1,093,408 | \$ | 1,094,496 | \$ | 544,225 | \$ | 4,755 | \$ | 51,923 | \$ | 22,631 | \$ | 470,962 |

The Federated Treasury Obligations Fund invests primarily in repurchase agreements collateralized by Treasury securities and U.S. Treasuries. The Reserve U.S. Government Fund invests in U.S. government securities and repurchase agreements collateralized by U.S. government securities. Both funds operate in accordance with Rule 2a-7 of the Investment Company Act of 1940, as amended. Both funds can reasonably be expected to have a fair value that will be unaffected by interest rate changes because the interest rates are variable and the principal can be recovered on demand. As noted above, as of June 30, 2008, the cost of the money market mutual funds approximated fair value.

For mortgage-backed securities, it is the intention of CDA to hold the securities until the underlying loan is paid in full.

## NOTE 3 - CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES (Continued)

## Credit Risk and Concentration of Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Neither CDA's Investment Policy nor the trust indentures require investment agreements or deposits to be collateralized. CDA's Investment Policy places no limit on the amount that CDA may invest in any one issuer or counterparty. According to CDA's indentures and Investment Policy, securities must be at a rating no lower than the rating on the bonds or, if an investment maintains only a short-term rating, a rating not less than F1/P-1; and financial institutions who are a counterparty to CDA in investment agreements must be rated at least comparable to the existing rating on CDA bonds unless counterparty ratings lower than the bond ratings are permitted in a specific indenture and do not affect the ratings on the bonds. In addition, certain investment and repurchase agreements require counterparty ratings no less than the ratings on the bonds. As of June 30, 2008, all counterparty ratings were at least equal to the ratings on the bonds except for one counterparty whose credit rating of Aa3 has not affected the Aa2 rating on CDA bonds. The ratings on Single Family Program Bonds, Multi-Family Housing Revenue Bonds, Housing Revenue Bonds, and Residential Revenue Bonds as of June 30, 2008 were Aa2 by Moody's Investors Service and AA by Fitch Ratings. The following table provides credit quality rating information for the investment portfolio and individual issuers, if they represent 5 percent or more of total investments in accordance with GASB Statement No. 40.

## NOTE 3 - CASH, CASH EQUIVALENTS, INVESTMENTS AND MORTGAGE-BACKED SECURITIES (Continued)

All mortgage-backed securities held by CDA are guaranteed by the Government National Mortgage Association (GNMA), an instrumentality of the United States Government. GNMA securities are "fully modified pass-through" mortgage-backed securities which require monthly payments by a Federal Housing Administration (FHA) lender, as the issuer of the Guaranteed Security to CDA. GNMA guarantees timely payment of principal and interest on Guaranteed Securities.

## Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank or counterparty failure, CDA will not be able to recover its deposits or the value of its collateral securities that are in the possession of an outside party. As of June 30, 2008, CDA's investments were not subject to custodial credit risk under GASB Statement No. 40. CDA's investments and collateralized securities are held in trust by the trustee or the trustee's agent, kept separate from the assets of the bank and from other trust accounts and are held in CDA's name. The uncollateralized investment agreement in the amount of $\$ 2,000$ is registered in CDA's name.

## NOTE 4 - MORTGAGE LOANS

Substantially all single family mortgage loans are secured by first liens on the related property. Approximately $99 \%$ of all single family mortgage loans are credit enhanced through the FHA mortgage insurance programs, the Veterans Administration and USDA/RD guarantee programs, the Maryland Housing Fund (MHF) or by private mortgage insurance policies. As of June 30, 2008, interest rates on first lien single family loans range from $1.0 \%$ to $13.9 \%$, with remaining loan terms ranging from 1 to 40 years.

Approximately $99 \%$ of all multi-family construction and permanent mortgage loans outstanding are insured or credit enhanced by FHA, MHF, FHLMC, FNMA or GNMA. As of June 30, 2008, interest rates on the loans range from $3.0 \%$ to $14.5 \%$, with remaining loan terms ranging from less than 1 year to 40 years.

All energy and rehabilitation loans are insured by the MHF. Loans made or purchased in excess of $\$ 5$ are secured by a deed of trust on the related property. As of June 30, 2008, interest rates on such loans range from $7.0 \%$ on owner-occupied residential properties to $10.0 \%$ on rental housing, with remaining loan terms ranging from less than 1 year to 2 years.

## NOTE 6 - SHORT-TERM DEBT

CDA issues short-term debt to preserve volume cap when prepayments and payments from mortgages exceed the demand for new mortgages. Proceeds of the short-term debt are used to refund and to pay at maturity prior series of bonds. At the time of the refunding, prepayments and repayments of mortgage loans financed by these prior bonds are transferred to accounts in the short-term series. CDA expects to make these funds available to purchase mortgage loans upon the maturity or earlier redemption of the short-term bonds with proceeds of additional long-term bonds. By issuing the short-term debt, CDA more closely matches the rates on the short-term debt with the rates on short-term investments. When there is sufficient mortgage demand, CDA issues long-term refunding bonds to redeem the short-term debt and the prepayments and repayments are used to fund new mortgages.

Short-term debt activity for the year ended June 30, 2008, in Residential Revenue Bonds, was as follows:

The outstanding short-term debt of $\$ 30,000$ plus the principal payments due within one year of $\$ 55,040$ equal the current portion of bonds payable and short-term debt of $\$ 85,040$ for the Residential Revenue Bonds on the Combined Statement of Net Assets. For the year ended June 30, 2008, none of the other Funds had short-term debt activity.

## NOTE 7 - BONDS PAYABLE

The bonds and notes issued by CDA are special obligations of CDA and are payable from the revenue and special funds of the applicable indentures. These bonds and notes do not constitute debt of and are not guaranteed by the State of Maryland or any other program of the State of Maryland or any political subdivision.

The provisions of the various bond indentures require or allow for the special redemption of bonds at par through the use of unexpended bond proceeds and excess funds accumulated primarily through prepayment of mortgage loans. All outstanding bonds are subject to optional redemption, in whole or in part at any time, after certain dates, as specified in the respective series indentures. The prescribed optional redemption premiums range from $0 \%$ to $1.5 \%$ of the principal amount.

The following lists those bonds which are at variable rates and the terms by which the variable rates change. All other bonds have fixed interest rates.

## Residential Revenue Bonds

2003 Series C; 2004 Series C, F and I; 2005 Series C; 2006 Series G and J; and 2007 Series F, J and M

The rate is set weekly by a remarketing agent so that the market value of the bonds is as close as possible to $100 \%$ of the principal amount of the bonds. In no event will the bonds bear interest at a rate in excess of $12 \%$, except for 2007 Series F, J and M which have a maximum interest rate of $15 \%$.

The following bonds are taxable. All other bonds are tax-exempt.

The interest calculations on outstanding variable rate bonds in the amounts of $\$ 342,415$ in Residential Revenue Bonds are based on the variable rates in effect on June 30, 2008 and are not indicative of the actual interest expense that will be incurred in future years. As rates vary, variable rate bond interest payments will vary. See Note 9 for additional information on interest rate exchange agreements (swaps) associated with the variable rate debt in Residential Revenue Bonds.

## NOTE 9 - INTEREST RATE EXCHANGE AGREEMENTS (SWAPS)

## Objective of the Swaps

As a means to lower its borrowing costs, CDA issues variable rate bonds. In order to protect against the potential increases in interest rates, CDA has entered into pay-fixed, receivevariable interest rate swap agreements in connection with certain variable rate bond series. CDA anticipates that the net swap payments and interest payments on underlying bonds will be lower than what CDA would have paid if it had issued fixed rate debt at the time of the underlying bond issuances. All of CDA's swaps are intended to be cash flow hedges.

## Terms and Fair Value

The terms, including the fair values of the outstanding swaps as of June 30, 2008, are provided in the table below. The counterparty credit ratings for all outstanding swaps as of June 30, 2008 are listed under the Credit Risk section. For each of the outstanding swap agreements the variable rates are reset monthly, and the final maturity dates of the underlying bonds and the final termination dates of the corresponding swap agreements are the same. The fair values are based on the market values and are affirmed by an independent advisor who used valuation methods and assumptions in accordance with the GASB Technical Bulletin No. 2003-1.

Notes to Table (also continued on page 31):
(1) "LIBOR" means the 1 month London Interbank Offered Rate.
(2) CDA has the option to terminate this interest rate swap transaction in whole or in part without any termination payment on September 1, 2014 and on each March 1 and September 1 thereafter (Optional Termination Dates). If the option is exercised in part, the applicable notional amounts shall be reduced pro rata.

# NOTE 9 - INTEREST RATE EXCHANGE AGREEMENTS (SWAPS) (Continued) 

Notes to Table (continued from page 30):
(3) CDA has the option to terminate this interest rate swap transaction in whole or in part without any termination payment on March 1, 2016 and on each September 1 and March 1 thereafter (Optional Termination Dates). If the option is exercised in part, the applicable notional amounts shall be reduced pro rata.
(4) CDA has the option to terminate this interest rate swap transaction in whole or in part without any termination payment on March 1, 2017 and on each September 1 and March 1 thereafter (Optional Termination Dates). If the option is exercised in part, the applicable notional amounts shall be reduced pro rata.

CDA has the option to terminate this interest rate swap transaction without any termination payment up to the Maximum Optional Early Termination Amounts on September 1, 2008 and on each March 1 and September 1 thereafter. CDA has the option to terminate this interest rate swap transaction in whole or in part without any termination payment on September 1, 2017 and on each March 1 and September 1 thereafter (Optional Termination Dates). If the option is exercised in part, the applicable notional amounts shall be reduced pro rata.
(6) The outstanding notional amount reflects the amount that amortized as of March 1, 2008.
(7) On May 30, 2008, JP Morgan \& Co. acquired The Bear Stearns Companies Inc. Notwithstanding this acquisition, Bear Stearns Financial Products remains in existence and continues as a swap provider on this swap agreement.

## Basis Risk

The swaps would expose CDA to basis risk should the relationship between the London Interbank Offered Rate and the Securities Industry and Financial Markets Association Rate converge. If a change occurs that results in the rates moving towards convergence, the expected cost savings may not be realized. In order to mitigate this risk, prior to the execution of the swap agreements, CDA and its independent financial advisor reviewed historical trading differentials between the Securities Industry and Financial Markets Association Rate and the London Interbank Offered Rate.

## Credit Risk

Credit risk is the risk that a swap counterparty will not fulfill its obligations. The fair value of the swaps represented CDA's credit exposure to each counterparty as of June 30, 2008. CDA was not exposed to credit risk under the swap agreements with BSFP, UBS AG or MLDP since the fair value of each counterparty's swap portfolio was negative. However, should the valuation of any of the individual swaps change, and the fair values turn positive, CDA may become exposed to credit risk in the amount of the swaps' fair values. To mitigate the potential for credit risk, the fair value of the swaps will be fully collateralized by the counterparties if a counterparty's credit quality falls below the designated credit rating thresholds.

## Termination Risk

Termination risk is the risk that, due to some event or exercise of a right, the swaps may terminate prior to the scheduled expiration which could result in a payment due from CDA. Furthermore, if a swap is terminated, the underlying variable rate bonds may be exposed to the rising variable interest rates.

According to the termination provisions of the swap agreements, CDA or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. The counterparty can terminate the contract if the ratings on the related bonds fall below the credit rating thresholds. In addition, CDA has an option to terminate the swaps in part or in whole without any payment except for accrued interest on the respective Optional Termination Dates. Regardless of the above, CDA has a unilateral right to terminate swaps at any time upon adequate notification to the counterparty. If at the time of such termination a swap has a negative fair value, CDA would be liable to the counterparty for a payment equal to the swap's fair value along with any accrued interest.

## NOTE 9 - INTEREST RATE EXCHANGE AGREEMENTS (SWAPS) (Continued)

## Rollover Risk

CDA is exposed to rollover risk on the swap agreements if one terminates prior to the maturity of the associated debt. Each of CDA's swap agreements has the same final termination date as the final maturity date of the underlying bonds.

## Amortization Risk

Amortization risk is the risk that the actual redemption pattern of the bonds may differ from the swap schedule, producing a mismatch between the principal amount of the bonds outstanding and the outstanding notional amount of the swap. To address this risk, CDA has structured all swap transactions to provide for optional termination on the respective Optional Termination Dates and automatic incremental amortization of the swap notional amounts. Mortgage loan prepayments can also be directed to the variable rate series to match the outstanding notional swap amount to the outstanding amount of the underlying bonds.

## Tax Risk

Tax risk is the risk that the value of tax exemption may decline through tax law changes and that variable interest rates would then rise toward taxable levels and the expected cost savings of the swaps may not be realized.

## Counterparty Risk

Counterparty risk is the risk that a counterparty will fail to make required payments. In order to limit this type of risk, CDA diversifies its exposure across several counterparties.

## Swap Payments and Associated Debt

The following table provides a summary of debt service requirements for hedged variable rate bonds and net swap payments for the next five years and in five-year increments thereafter. The interest calculations are based on the variable rates in effect on June 30, 2008, and may not be indicative of the actual interest expense that will be incurred. As rates vary, variable rate bond interest payments and net swap payments will vary.

## NOTE 10 - BOND REFUNDINGS

Certain refundings of debt are due to the prepayments of single family mortgage loans. In these cases, CDA transfers the proceeds of the refunding bonds to a redemption account to redeem previously issued bonds and, simultaneously, transfers the prepayments of single family mortgage loans financed by these prior bonds to the refunding bonds' accounts for the purpose of originating new loans. This recycling of prepayments enables CDA to originate new loans that are not subject to the limitations of the IRS volume cap. CDA does not pay call premiums on these special redemptions, and the refundings are not undertaken to reduce interest rates, revise payment schedules or modify restrictions. CDA writes off any unamortized deferred issuance costs or original issue discounts, net of unamortized original issue premiums, as a loss in the accompanying Combined Statement of Revenue, Expenses and Changes in Net Assets. If unamortized original issue premiums exceed unamortized deferred issuance costs and original issue discounts, CDA records a gain.

# NOTES TO COMBINED FINANCIAL STATEMENTS - CONTINUED (in thousands) 

June 30, 2008

## NOTE 10 - BOND REFUNDINGS (Continued)

For current refundings of debt in an optional redemption, CDA replaces previously issued bonds with lower cost debt. This type of transaction is commonly known as an economic refunding. In economic refundings, CDA defers the difference between the reacquisition price (i.e., the principal of the old debt, plus the call premium) and the net carrying amount of the old debt (i.e., the amount due at maturity, adjusted for any unamortized premium or discount and issuance costs related to the old debt) as an offset to the new bonds on the accompanying Combined Statement of Net Assets, in accordance with GASB Statement No. 23 Accounting and Financial Reporting for Refunding of Debt Reported by Proprietary Activities. This deferral is amortized, using the effective interest method, over the remaining life of the old debt or the life of the new debt, whichever is shorter. For the year ended June 30,2008, CDA did not issue any refunding bonds for the purpose of lowering its cost of debt.

## NOTE 11 - REBATE LIABILITY

In accordance with the Internal Revenue Service Code (the Code), CDA has recorded a rebate liability for excess investment earnings in tax-exempt bonds and notes issued after 1981. The excess investment earnings arise due to actual investment yields earned by CDA being greater than yields permitted to be retained by CDA under the Code. The Code requires $90 \%$ of such excess investment earnings to be remitted to the United States Treasury every five years and in full at the final redemption of the bonds. Interest income on the Combined Statement of Revenue, Expenses and Changes in Net Assets is reduced by the rebate liability due to excess investment earnings. The increase/decrease in fair value of investments on the Combined Statement of Revenue, Expenses and Changes in Net Assets is adjusted by the change in the estimated rebate liability due to change in fair value of investments. CDA has no rebate liability from interest income or from unrealized gains on mortgage-backed securities.

## NOTE 13 - INTERFUND ACTIVITY

In accordance with the various bond indentures, net assets in each of the Funds are restricted and pledged to bondholders. However, restricted assets may be transferred to other Funds, subject to the provisions of the respective indentures. Generally, an officer of CDA must authorize such withdrawals and a cash flow analysis must demonstrate that sufficient monies remain in the indenture to meet the obligations of the Funds in current and future years. A cash flow analysis is not required for the General Bond Reserve Fund (GBRF) because there were no bonds outstanding in GBRF as of June 30, 2008.

During the year ended June 30, 2008, CDA transferred the following amounts, as permitted, among Funds:

## NOTE 14 - OTHER OUTSTANDING BONDS ISSUED BY CDA (CONDUIT BONDS) (UNAUDITED)

CDA has issued the following bonds that are not included in the combined financial statements of the Funds. The Multifamily Development Revenue Bonds and the Multifamily Development Revenue Refunding Bonds are secured solely by the properties and related revenues of the projects and the applicable credit enhancements. The Draw Down Mortgage Revenue Bonds are secured by an investment equal to the debt outstanding. The Capital Fund Securitization Bonds are insured and are repayable by the Department of Housing and Urban Development (HUD) directly to the trustee from funds that the participating public housing authorities would have received under its Annual Contributions Contract. Neither the faith and credit of CDA nor the assets of the Funds have been pledged as security for these bonds. Accordingly, these obligations are excluded from CDA's financial statements.

The Multifamily Development Revenue Bonds, the Multifamily Development Revenue Refunding Bonds, the Draw Down Mortgage Revenue Bonds and the Capital Fund Securitization Revenue Bonds are special obligations payable solely from the trust estate pledged under each indenture. These bonds do not constitute a debt of and are not guaranteed by the State of Maryland, any political subdivision thereof, CDA or the Department of Housing and Community Development.

Subsequent to June 30, 2008, CDA issued Draw Down Mortgage Revenue Bonds in the amount of $\$ 47,755$ on August 1, 2008. On August 28, 2008 and September 17, 2008, CDA issued Multifamily Development Revenue Bonds Series 2008 D and 2008 E in the amounts of $\$ 3,885$ and $\$ 15,200$, respectively.

## NOTE 15 - MORTGAGE INSURANCE

Substantially all of CDA's mortgage loans have mortgage insurance as described in Note 4.
Multi-family mortgagors pay premiums for mortgage insurance and insurance coverage is $100 \%$ of the unpaid principal balance of the loan.

## NOTE 15 - MORTGAGE INSURANCE (Continued)

For a loan insured by an agency of the U.S. Government in Single Family Program Bonds, the primary mortgage insurance covers an amount substantially equal to the unpaid principal amount of the loan. Almost all other loans have primary mortgage insurance in an amount that is at least $25 \%$ of the loan amount. Less than $5 \%$ of all first lien loans either did not have primary mortgage insurance due to their original loan-to-value ratios of less than $75 \%$ or have cancelled primary mortgage insurance due to their outstanding balance falling below $75 \%$ of the original loan amount. Single family mortgagors pay the premiums for primary mortgage insurance. For any losses not covered by primary mortgage insurance in Single Family Program Bonds, CDA has purchased pool insurance or established specific reserves. For each series of bonds, pool insurance coverage cannot exceed $10 \%$ of the amount of proceeds of the series of bonds. Maryland Housing Fund (MHF) has issued most of the pool insurance policies.

About 37\% of all loans in Residential Revenue Bonds are insured by agencies of the U.S. Government in an amount substantially equal to the unpaid principal amount of the loan. Approximately $62 \%$ of total loans are insured by private mortgage insurers or MHF at $35 \%$ of the loan amount. In the opinion of management, these coverage levels are sufficient so that no pool insurance or reserves are required. An allowance for loan losses has been established for loans insured by private mortgage insurers. Premiums are paid by single family mortgagors or CDA.

## NOTE 16 - PENSION AND OTHER POST-RETIREMENT BENEFITS

Eligible employees of CDA and employees of the State of Maryland are covered under the retirement plans of the State Retirement and Pension System of Maryland (the System) and are also entitled to certain healthcare benefits upon retirement. CDA's only obligation for retirement and post-employment benefits is its required annual contribution, which was paid in full by CDA to the State of Maryland prior to year end. The System prepares a separate audited Comprehensive Annual Financial Report which can be obtained from the State Retirement and Pension System of Maryland, 120 East Baltimore Street, Baltimore, Maryland 21202 or by visiting the website at www.sra.state.md.us.
